

X-Stage

POSSIBLY THE "ULTIMATE" IN PORTABLE PODIUM STAGES

After years of extensive research and development, Vertical Leisure has produced a portable stage that meets the universal demands of dancers, gyms and clubs.

Requirements such as – portability, ease of transportation, ease of set up, large circular dance area with no corners or sharp edges, static and spinning functions, multi-piece pole tube, hi-stability for use without additional weight for anything but extreme moves and the most important of all, value for money – have all been achieved with X-Stage.

Supplied with everything needed X-Stage assembly takes only a few minutes and is simplicity itself.....

....Remove from the carry cases, expand the main frame, lock the stage floor sections in place, insert the main pole, tighten retaining screw, add the extension pole, tighten the screw and your ready to dance – it's really is that quick and simple....

So, less than 5 minutes from arrival to dancing and even better, the only tool you need are 2 hex keys and they are supplied!

X-Stage is the most highly specified podium stage ever produced. No other stage has the functionality, Portability or stability of X-Stage. Not only that, all the key are features included as standard so there are no extras to purchase. Once again there is only one choice of product for serious dancers – Vertical Leisure's X-Stage.

- Now Features X-Joint -

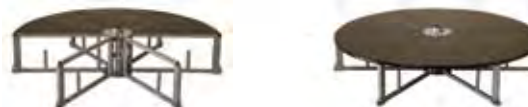

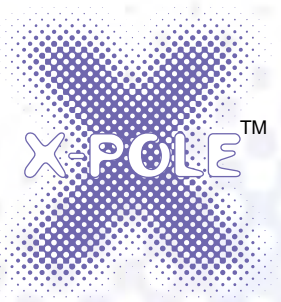

Specifications:

Pole Diameter: 50mm (2")
 Stage Diameter: 1600mm (5'3")
 Overall Height: 3m (10')
 Stage Height: 320mm (12.5")
 Useable Pole: 2.65m (8'10")

Weight (approx):	X-Stage Complete	88Kg
(in carry Cases)	Main Frame	38Kg
	Stage Panels	40Kg
	Pole Tubes	10Kg

X-Stage Key Features

- **1600mm (5'3") Circular Stage Floor** – not square with sharp corners and flat sides, reducing the overall dance area.
- **Rounded Stage Edges** – so nothing sharp to hurt the dancer during moves or floor work.
- **Fully foldable** – main frame folds into a 900 x 350 x 200mm bag with wheels. 2 complete X-Stage's will fit in a standard car.
- **Stage Floor** – 6 easy fit floor panels just lock into place (no tools needed).
- **Pole Tube** – 2 piece, screw together pole tube for easy transportation.
- **Spinning** – included as standard at no extra cost.
- **Stability** – extremely stable, most moves can be done without extra weight.
- **Extension Stabilisers** – increase stability without the need for additional weight (Included).
- **Weight Posts** – allow for the additional of 'optional' bar bell weights.
- **Adjustable Feet** – to reduce movement on uneven floors.
- **Silicone Base Pads** – stop the stage sliding and protect the floor from damage.
- **Side Skirts** – comes with wrap round magnetic side covers.
- **Wheeled Carry Case** – no need to carry the main frame, just wheel it where you want to go! (Included)
- **Carry Cases** – for Stage frame, Floor Panels and Pole (All Included).

Welcome to X-POLE

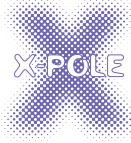

Vertical Leisure World Leaders in Pole technology have been designing and manufacturing the market leading X-Pole range of products for the last 5 years.

Working with top dancers and our in house designer the X-Pole range has been at the forefront of pole innovation releasing products specifically designed for people who want to pursue the art of pole exercise and dance.

An X-Pole is not a gimmick to dance round it is part of a range of purpose built professional poles and stages designed to be used by all levels, from beginner to expert. X-Poles are installed and used by top dancers in studios and gyms all over the world.

Key features of ALL X-Pole sets are:

- No Ceiling Fixing Required.
- Takes Minutes to Assemble and Disassemble.
- Completely Portable.
- Extendable from 2235mm (7'.4") to 2745 (9').
- Optional Extension Lengths.
- 50mm (1.96") or 45mm (1.75") Diameters.
- Comprehensive Photographic Instructions.
- Unbelievable Value for Money.

A Revolution in Pole Technology

X-Joint – (Patent Pending)

The X-Joint is a revolutionary NEW tube joint developed after 2 years of consultation and testing with the worlds best instructors who wanted a quick, easy to install pole with hi-stability/rigidity and most importantly strength. X-Joint 100% meets those requirements and will in the future become the industry standard for multi-piece pole assembly.

After years of fighting to do up and undo screw together joints, X-Joint tube assembly takes seconds not minutes. It creates a stronger more rigid joint with less pole flex and eliminates any possibility of tube to tube rotation or joints coming undone with opposite rotation moves. Also X-Jointed pole tubes have zero transition (no gap) between joints even when the pole is flexed.

Simple to use, the X-Joint slides into each pole tube and is quickly locked in place with a key, making pole assembly and disassembly a dream experience. X-Joint is now featured in all new X-Pole and Stages.

X-Joint

X-POLE "SPORT" – XS

BOTTOM LOADING, STATIC ONLY POLE (with X-Joints)

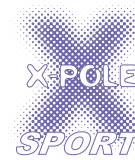

The X-Pole Team have spent a significant amount of time researching, designing the SPORT POLE. Developed with beginner pole dancers in mind, whilst also being suitable for Professionals, the SPORT is extremely sturdy as well being easy to install and use.

Incorporating the revolutionary new X-Joint, assembly and installation of the SPORT very quick, enhanced even further by its bottom tightening adjuster (bottom loading) which means no ladders are required for installation.

With features and technology far in advance of many more expensive poles the SPORT is the perfect starting point for any newcomer to pole dancing - and its best feature - it is great value for money as well.

SPORT (XS) Key Features:

- Bottom Loading - no ladders required.
- Revolutionary NEW X-Joints - easy to use, quick to install.
- Smooth Pole from Top to Bottom - no transition between tubes.
- Small Upper Dome - for installation under one joist.
- Static Only.
- Available in 45mm (1.75") and 50mm (2") tube sizes.
- Extendable from 2235mm (7'.4") to 2745 (9') from the box.
- One Carry Case - holds a complete SPORT POLE.

Easy to Install

Complete with Carry Case

X-POLE "XPERT" – XX

THE WORLD'S FIRST BOTTOM LOADING SPINNING AND STATIC POLE (with X-Joints)

The XPERT is the world's first 'bottom loading', static and spinning dance pole. Designed with Professional Dancers and Pole Tricks in mind the XPERT incorporates all the features required to meet the demands of the world's best.

Bottom loading, no longer is a ladder needed for installation, the XPERT uses X-Poles unique OEM adjuster system to expand and fully lock the pole in position, whilst the dancer stays firmly on the ground. No locking nut to come undone.

The XPERT also incorporates a special adjuster cover which when in place, creates a totally smooth pole from top to bottom. No sharp pole edge or screw adjuster to scrape arms and legs, no cover edges to hit, just smooth pole all the way. It even features a Micro Base for minimum contact.

The XPERT is the Professional Dancers Ultimate Pole

XPERT (XX) Key Features:

- Bottom Loading - no ladders required.
- Revolutionary NEW X-Joints - easy to use, quick to install.
- Smooth Pole from Top to Bottom - no transition between tubes.
- Static and Spinning Options.
- Micro Articulating Base - easy to set up on uneven floors.
- Double Width Support Dome for Maximum Stability.
- Available in 45mm (1.75") and 50mm (2") tubes sizes.
- Extendable from 2235mm (7'.4") to 2745 (9') from the box.
- Includes Carry Cases.

For existing X-Pole owners a cost effective XPERT upgrade unit is available which replaces their current adjuster pole. All the other parts, upper dome, base, extensions etc. are used as normal.

XPERT is every dancers dream pole so test dance the latest in Hi-tech poles at your local dance school today or contact the X-Pole sales team for more info.
